

# TEQUILA 30-30

The Name of our Tequila has its origin in this legendary rifle. Icon of the mexican people fight in Mexican Revolution and during the “Revolución Cristera”. It is the only rifle that has inspired a mexican traditional song because of its great importance in the history of our country.

## ↔ TASTING NOTES ↔

**View:** Bright and clean pale yellow Tequila. An apparent low average density.

**Nose:** At first nose, herbal and spicy notes dominate: vanilla, coconut, caramel, and a slight note of roasted coffee, leaving behind the scent of mature fruit. At second nose still dominate the spicy notes revealing pepper that was hidden before; also flavors of sweet potato and brown sugar appear.

**Palate:** The attack of this tequila is a molten soft and fresh acidity, followed by the light and pleasant alcohol. Aromas provided by the barrel are found in the nose, leaving notes of toasted wood.
